A PRIMROSE SCHOOLS EDITION

# NEW CLASS IX - SUBJECT SELECTION

**Subject selection is a pivotal step in shaping ones academic, professional, and personal journey. By carefully considering ones interests, goals, and aspirations, conducting thorough research, seeking guidance, and maintaining flexibility, one can make informed decisions that set the stage for success and fulfilment.**

**Month of February every year paves way for our class VIII children to consider their interest and seek guidance from our Principal to take a step forward in their academic journey by selecting a stream of subjects based on their interest.**

# NEW CLASS IX - SUBJECT SELECTION

**“As parents, we can't emphasize enough the importance of thoughtful subject selection. When our children were deciding on their subjects for high school, we had numerous discussions about their interests and future goals. Seeing them flourish in subjects that truly engage them has been incredibly rewarding. Not only have they developed a deeper understanding of their chosen fields, but also gained confidence and a sense of direction. Subject selection isn't just about ticking boxes; it's about setting the stage for a fulfilling and successful future.” --Says most of the parents of class VIII students.**

# OPEN DAY – CLASS VIII & IX

**2023 - 2024  
SCHOOL YEAR**

**“Collaborating with parents to assess their child's performance is essential for fostering a supportive learning environment. During a recent parent-teacher conference, we had the opportunity to discuss the students progress with their parents. By providing insights into the students engagement, participation, and academic performance, we were able to identify strategies for further development and support. The parents’ proactive approach to their child's education was inspiring, and we are confident that our partnership will contribute to our students’ continued growth and success.” -- claims our teachers**

# OPEN DAY – CLASS VIII & IX

Attending the parent-teacher meeting was an enlightening experience for us as parents. It was incredibly reassuring to hear the teacher's positive feedback about our children's progress and behaviour in class. The meeting provided us with an opportunity to address any concerns and discuss strategies for continued growth and improvement. We left the meeting feeling supported and encouraged, knowing that our children are in capable hands at school. It's clear that the teachers are dedicated to providing a nurturing and enriching learning environment, and we are grateful for their commitment to my children's success – Says the Parents of Primrose

# INTER SCHOOL CHESS SELECTION

**Sending children to regional tournaments in chess holds immense significance as it provides numerous benefits for their personal development and growth. Firstly, regional tournaments offer a competitive environment where children can test their skills against players from different backgrounds and playing styles, thereby broadening their experience and understanding of the game. Participating in such events fosters resilience and determination as children learn to cope with both victory and defeat, teaching them valuable life lessons about sportsmanship and perseverance. Moreover, regional tournaments serve as a platform for children to showcase their talents and achievements, boosting their confidence and self-esteem.**

# INTER SCHOOL CHESS SELECTION

Aiming at enrolling our children in Regional Chess tournaments , chess masters were invited to conduct a selection round for our children and identify young chess players.

# INDUCTION PROGRAM FOR CLASS IX & X

Induction classes for students entering class IX and X play a pivotal role in facilitating their transition to the higher grades of secondary education.

The Academic Year 2024- 2025 began on 15<sup>th</sup> of February with a great enthusiasm for our students of classes new IX and X.

Induction classes conducted by our Principal included sessions on study skills, time management, and goal setting, equipping students with the tools and strategies necessary to excel in their studies.

# NOTE BOOKS DISTRIBUTION FOR CLASS IX

Book distribution events evoke a palpable sense of excitement and enthusiasm among children, igniting their passion for learning and exploration. As each child receives their new books, their eyes light up with anticipation, eager to delve into the worlds of knowledge and imagination that lie within the pages.

**Children of new class IX received their books from our Principal Sir.**

**“The act of holding a new book in hands fills us with a sense of ownership and pride, fostering a deep connection to the joys of reading and education.” - claims our boys of new class IX**

# MEDICAL CHECK UP CLASS VI- IX

Medical check-ups conducted in schools serve as a cornerstone of proactive healthcare for students, ensuring their physical well-being and laying the foundation for a healthy lifestyle. These check-ups provide an invaluable opportunity for early detection of health issues, allowing for prompt intervention and treatment.

“By conducting medical check-ups in a familiar and supportive environment like school, barriers to accessing healthcare are minimized, ensuring that all students have equitable access to essential health services. Ultimately, school-based medical check-ups contribute not only to the physical well-being of students but also to their overall academic success and personal development.” -- says the medical team

# MOTHER'S BIRTHDAY CELEBRATION

On 21<sup>st</sup> February, Mother Mirra Alfassa's birthday was celebrated with utmost joy.

On her birthday, we reflect on her profound wisdom, compassion, and boundless love that touched the lives of countless individuals. It's a time to express gratitude for her guiding presence and unwavering commitment to the realization of a divine consciousness on Earth. Through meditation, prayer, and acts of service, we honour Mother Mirra's legacy and reaffirm our commitment to embodying the values of peace, unity, and harmony that she embodied.

# MOTHER'S BIRTHDAY CELEBRATION

Children of class new IX and X conducted a programme to celebrate the birthday of Mother Mirra Alfassa.

Our girls of Language & Arts stream Hasini and Archita painted the values taught by Mother Mirra and Aaradhana and Likitha sree shared the importance of each values taught by 'The Mother'.

Children were excited when our Principal Sir re-emphasized the significance of each value connecting to life.

# NEW TEACHER'S INDUCTION

**"Embrace the new, for it brings opportunity and growth."**

**Inducting new teachers into the school community is a crucial step in ensuring their successful integration and fostering a positive work environment. Through a comprehensive induction program, new teachers are introduced to the school's mission, values, policies, and procedures, providing them with a clear understanding of the organization's expectations and culture.**

**“Principal sir took initiative to support and empower us to thrive in our roles, contribute meaningfully to the educational community, and make a positive impact on the lives of students.” -- says the new joiners**

### Topic : Festivals of India

India is a land of vibrant and diverse festivals that reflect its rich cultural tapestry and heritage. From the colourful celebrations of Holi to the spiritual fervour of Diwali, each festival holds a special significance and brings communities together in joyous harmony.

The value education internal assessment given to children was aimed at making the children realise these festivals not only provide moments of joy and celebration but also serve as occasions for spiritual reflection, cultural expression, and social bonding, uniting people across regions, religions, and backgrounds in the spirit of love and harmony.

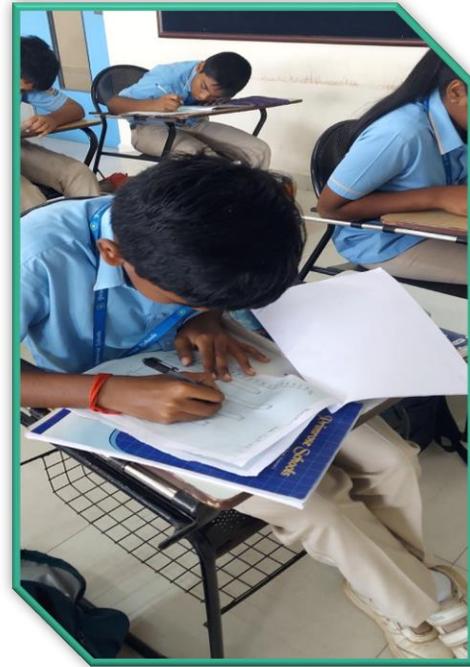

### Topic : Data Handling

Data handling is a fundamental concept in mathematics that plays a crucial role in various real-world applications and decision-making processes. By analysing and interpreting data, individuals can draw meaningful conclusions, identify patterns, and make informed decisions.

### Topic : Data Handling

In today's data-driven world, the importance of data handling cannot be overstated. Whether it's analysing sales figures to make business forecasts, interpreting medical data to diagnose diseases, or studying population trends to inform urban planning, proficiency in data handling is essential for success in numerous fields.

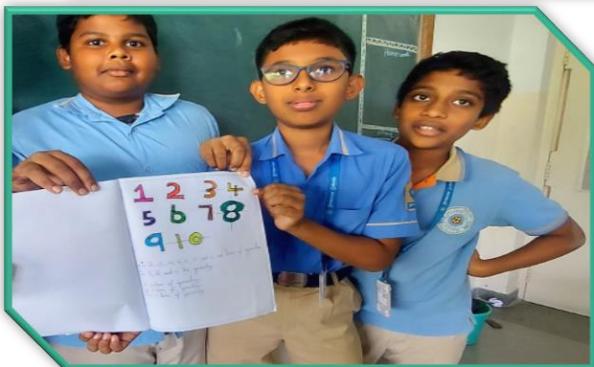

Children of class 6 were able to present an amazing analysis of data showing the temperature of different cities.

# ACTIVITY – MATH 2 CLASS 6

## Topic : Symmetry Activity

“The symmetry activity was the highlight of the Math class for us! We never realized how symmetrical shapes can be so aesthetically pleasing. It was fascinating to learn about bilateral and radial symmetry and then apply that knowledge to real-world examples. This activity sparked our curiosity, and now we find ourselves noticing symmetry everywhere we go!” exclaims the girls of class VI.

The symmetry activity in Math class was a blast! We enjoyed exploring symmetry in nature and art, and then creating our own symmetrical designs. It was like solving puzzles while being creative at the same time. This activity helped us see Math in a whole new light, and we're excited to apply what we've learned in future lessons. - Says Sajeeth and team.

# INTERNAL ASSESSMENT – MATH 1

**Topic : Determine profit or loss by setting up a shop**

**“Setting up a shop in school by children is not only an educational endeavour but also a commendable entrepreneurial initiative that fosters creativity, teamwork, and real-world skills.**

**Through this endeavour, children not only learn the basics of business operations such as budgeting, pricing, and marketing but also develop critical thinking, problem-solving, and communication skills. By taking ownership of their shop, they demonstrate initiative, responsibility, and leadership, which are essential qualities for success in any endeavour” – says our Math teachers**

# INTERNAL ASSESSMENT - ENGLISH

*“Our English Internal was interesting because we were able to create a collage and express through our writing about the person who inspired us” – claims class VII students*

Our English Internal helps us to write personal journals, prepare mixed media artworks, or social commentary pieces.

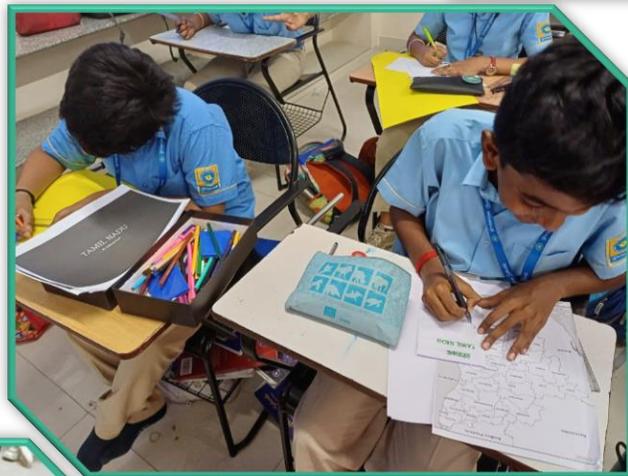

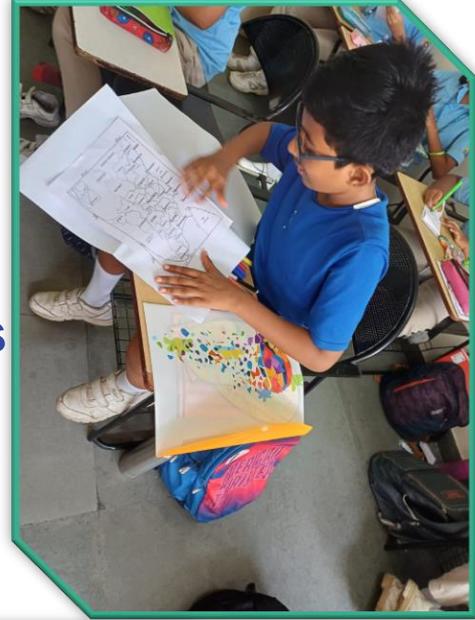

We are happy to learn this through internals – says student of class VII

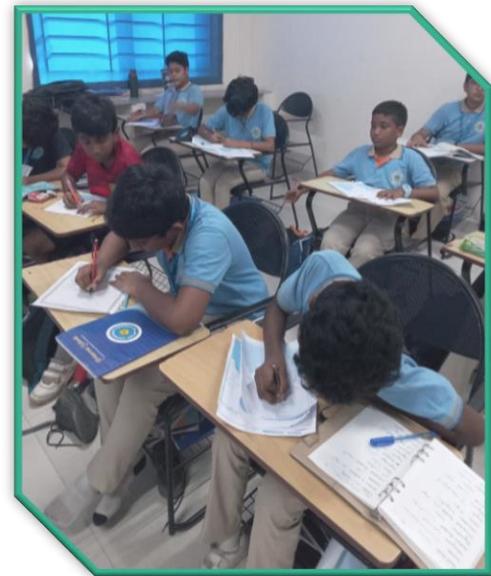

# INTERNAL ASSESSMENT – HISTORY & CIVICS

## Topic : Travel Brochure of Tamil Nadu

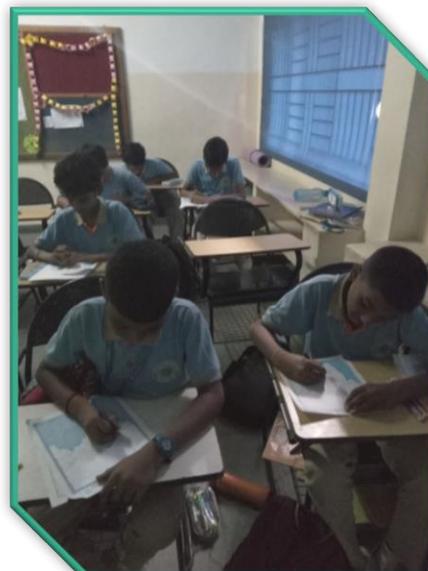

*“We learned to locate the places on the map and also designed brochures about our state highlighting its culture, food, tourist destinations, and more.” - said class VI students*

### Topic : Map Marking of India

Locating places on a map of India reveals its diverse landscapes, from the Himalayas to Kerala's beaches. It's a journey through history, tracing ancient cities like Delhi and marvelling at architectural wonders like the Taj Mahal. Each location tells a story of India's rich culture, from Rajasthan's festivals to Kerala's backwaters. Exploring the map offers insights into historical trade routes and modern-day adventures. It's a window into India's heritage, inviting exploration, learning, and appreciation of its beauty. - says our students of class VI

## GEOGRAPHY

### Topic : Booklet Preparation of Australia and Antarctica

Creating a booklet about Australia and Antarctica is an educational endeavour that benefits students and educators alike. It serves as a comprehensive resource for learning about the geography, wildlife, and cultures of these regions. Through research and writing, students develop valuable skills in critical thinking, research, and communication. The project promotes cultural awareness and appreciation for the diverse environments of Australia and Antarctica. Additionally, collaborative learning, creativity in design, and interdisciplinary connections enrich the educational experience for students involved in the project.

- shares the Geography teacher

### Topic : Life Span of Garbages

Understanding the lifespan of garbage and creating a chart to visualize it offers several important benefits.

Firstly, it raises awareness about the environmental impact of waste by illustrating how long different types of garbage persist in the environment. This knowledge encourages

responsible waste management practices, such as recycling and reducing consumption, to minimize the accumulation of long-lasting waste. Additionally, creating a chart engages visual learners and makes complex information more accessible and understandable to a wider audience. By visually representing the lifespan of garbage, individuals are empowered to make informed choices about waste disposal and consumption habits, leading to a more sustainable future for our planet.
