A PRIMROSE SCHOOLS EDITION

**“May, more than any other month of the year, wants us to feel most alive”** said by Fennel Hudson, a countryside author, broadcaster, publisher and editor. The summer vacation began for the students to relax after successfully completing their academic year. To overtake the silence around the school in the absence of children, we conducted various workshops and sessions for the teachers to upgrade their skills in various aspects.

The month is filled with enthusiasm, productivity, sharpening skills and effectiveness of the teachers. It is the month in a year where teachers would become students and utilize their time fruitful through collaborative learning.

The month of May began with seven day workshop conducted for teachers. The immense thirst of our teachers to learn about new ideas and ways to be a effective person to use their time productively was quenched with the workshop entitled as "7 habits of highly effective people".

To strengthen our sports team we conducted a free summer camp for our students. The students from different teams like Football, Throw ball, Kabadi, Kho-Kho showed their involvement with the active participation of morning and evening sessions. To inculcate the team spirit and sense of belonging students were provided with their new jersey. To set another benchmark in Yoga our students Pavana pushpak from grade X and Purvi Nayak from grade VIII represented our school in national yoga competition held at Kolkata.

One of the major objectives of the school is to nurture the children with utmost care and protection. A fire drill training was conducted to both teaching and non-teaching faculties of our school. Teachers were categorized as four teams and had given organized training for how to act effectively at the time of emergency. The session also extended two hours for the detailed practical training on the usage of fire extinguisher,.

"A goal without a plan of execution is just a wish". The month of may ended with the learning session for our teachers to enhance their planning strategies and to interpret various dynamics and creative methodologies. I would like to conclude that making every resource effective comes only from well planned strategy to succeed .

Regards,  
Principal

# 7 Habits of highly effective people

The Principal introducing the seven habits to be highly effective people

Teachers solving the puzzle as an activity where they have to focus on coordination

A seven day workshop entitled "7 habits of highly effective people" was conducted for the teachers in the first week of May where teachers involved in activity based learning about the importance of being productive and effective.

# 7 Habits of highly effective people

Teachers using the other skills which they learnt in the session like planning and time management

One of the team who managed to solve the puzzle effectively

The session went on with highlighting the importance of effectiveness, efficiency, pro-activeness, prioritize, coordination, productivity and so on. The teachers were given various tasks and worksheet to evaluate themselves in the end of each session.

# ISO 9001:2015 – internal audit

A training program was conducted by BSI ISO 9001:2015 training institute. This training program helped the teachers to understand how to scrutinize the internal audit process and to create report in an effective way.

# A Sumptuous Feast for Teachers

'Families eat together stay together'. To strengthen the bond between our teachers and to show the gratitude of the never ending endeavour of our teachers the provided a feast .for our teachers before their summer vacation.

# Creative thinking

Puzzles develop memory skills, as well as an ability to plan and test ideas to solve the problem. To complete a puzzle, students need to remember shapes, colors, positions and strategies to do it faster. To boost up children creative thinking, co-ordination and quick thinking, we conducted a puzzle solving activity.

# Learn with fun!

Students using their logical thinking and quick decision making to solve their puzzle within the given time

Students sharing the final outcome where they enjoyed a quality time in learning with fun.

# Board Meeting of the year 2022-23

The meeting starts with principal's welcome address followed with the annual and academic report discussion with the board members

The board members, Director, Chairman sharing their insights for the development of the academic and students

Board meeting for the academic year 2023 was conducted in the presence of chairman, director and trust members. The Annual report of the school, qualitative approach of development, ways to improve value based system of education and thoughtful insights for the welfare of school were discussed in in the meeting.

# New color for sport - Distribution of Jersey

Our girls sport team is in the full swing with their new jersey and brimming with energy.

our boys sports team is powered with spirit in their new jersey given to all the team members by the principal. The principal also shared his best wishes to the students for the upcoming matches

# Fire drill session - 2023

The fire fighting team with their new team members

The rescue team with their team members

The first aid team with their team members

The communication team with their team members

To make our teachers and other staff members accustomed to the process of fire safety, a fire drill session was conducted by the fire safety officers.

# Fire drill – Usage of fire extinguisher

Our non-teaching staffs, Drivers, Helpers participating in the mock and learning how to handle the fire extinguishers.

The training turned out active with the practical session where all the staff members were given proper guidance on the usage of fire extinguisher. Along with that they also learnt about Fire Safety Equipments like SOP- Standard Operating Procedure, ERP- Emergency Response Team and ERT- Emergency Rescue team.

# Mock Fire drill

A mock fire drill was conducted at the end of the training to review the emergency preparedness plan of the school and to evaluate the standard operating procedure, so that the concerned persons would deliver their duties effectively while keeping in cognizance of life and property.

# Training for teachers – Lesson Plan

A workshop was conducted by the Principal for the teachers in order to provide few insights to write their lesson plan more effectively. Teachers showed their utmost interest in learning the new techniques for writing their lesson plan. An interactive session was held with the active involvement of teachers.

# Training - Mind Mastery Session

An intriguing session was conducted by the Mind Mastery team. The session made the teachers to understand that healthy life is a combination of good physique along with the good mental health. A quick test was conducted to evaluate the mental health and ability with the help of 'Mentimeter' an AI tool. Through the evaluation, the trainees could find out the possible ways to attain a stress-free life.

# Teachers' chill out

Our teachers are having some fun time during the fruit salad game

Teachers enjoying their time with a lot of fun activities with one others.

A day out was planned for teachers to have a relaxing time with their colleagues. Teachers had some ice-cream and had a great fun time with games, music and dance.
