A PRIMROSE SCHOOLS EDITION

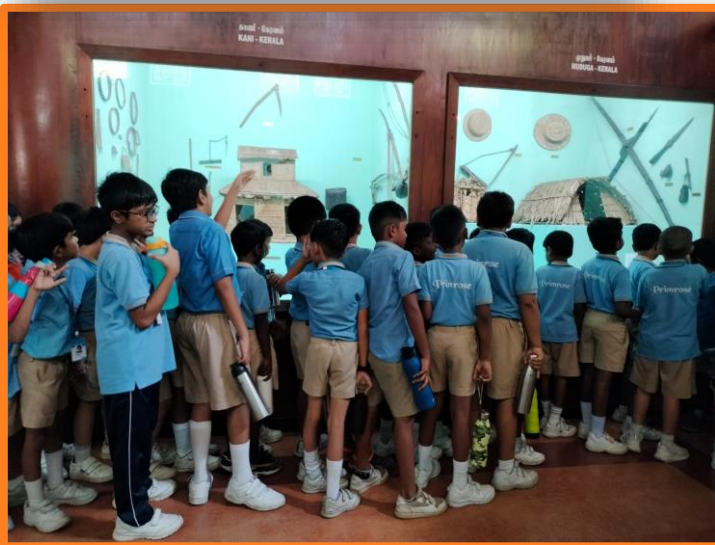

CHESS SELECTION – CLASS IV & V

Playing chess results in better brain function, improved memory, cognitive abilities, strategic thinking and attention improvement. Chess, at Primrose Schools is particularly encouraged from this point of view. Most children enjoy playing the game simply as a recreational activity, while it works alongside to boost their mental faculties. Of course it is a moment of immense pride when our students are selected to play in competitions, particularly at different level.

FIELD TRIP – EGMORE MUSEUM

CLASS III

Students in Class III ventured to the museum, as they should know that visiting a museum now and then is good for many reasons and has many advantages. For instance, a child learns about different things visually, and this helps him to remember things vividly. It is a source of entertainment for many students who like to learn about things differently.

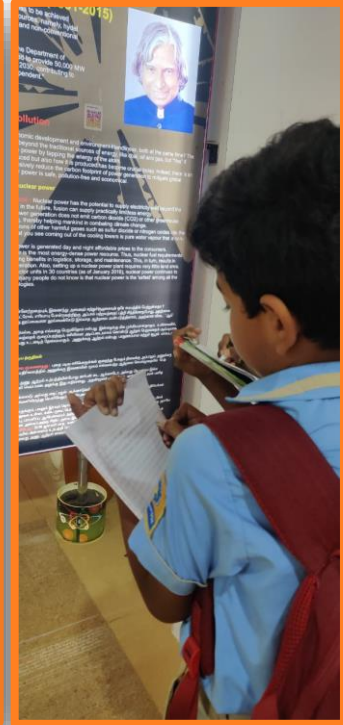

FIELD TRIP – EGMORE MUSEUM

CLASS III

A museum educates a student about different things and helps you become smarter. Museums also help inspire young minds and help them dream of many possibilities. Primrosians were imparted knowledge about how the world used to be and how it developed over the centuries.

FIELD TRIP - BIRLA PLANETARIUM CLASS IV

The little growing children of Class IV were taken to the Birla Planetarium for an experiential learning which helped them get insights on how mesmerizing our space looked. They were proceeded to the 3D show, which gave them an experience of the supernatural world. After which they also visited The Periyar Science and Technology Museum.

On a whole, the visit was a visual treat for our kids which will definitely help them in retaining the concepts taught about our Solar System.

FIELD TRIP - BIRLA PLANETARIUM

CLASS V

Our Students of class V were electrified looking at, the Solar System, different planets, sky and Earth, comets, shooting meteoroids and the stellar cycle. It was an informational tour where the students gained an insight into what is space and all about the Solar system at Birla Planetarium. As the lights dimmed and the journey through the stars began, the excitement among the students was overwhelming. The show was exemplary and provided a good visual experience as well as factual knowledge of astronomy to our kids.

FIELD TRIP - BIRLA PLANETARIUM CLASS V

The main objective of this trip is to develop scientific fervor, inculcate the scientific temper and the attitude of inquisitiveness. Students enjoyed the theatre show, seeing the celestial objects projected on the domed ceiling. Also, the students explored and had hands on experience of working models of Space Science. They were then taken to the 3D presentation, where they got a glimpse of the magical realm. They then visited the Periyar Science and Technology Museum.

MEDICAL CAMP

Health is Wealth

The School health programme enables children to be healthy. School organised a Medical Health Check-up Camp for all the students. A team of dedicated doctors and nurses from Heal Tree Hospital conducted the camp which included General Physical examination, Dental Check-up and Eye & Ear check-up. Necessary medical advice and precautionary measures were given to all students.

MEDICAL CAMP

Keeping track of necessary medical records, students' height, weight, and other general check-ups are carried out annually for all-level students. These camps may also help children improve their mental and physical well-being.

MOTHER'S BIRTHDAY CELEBRATION

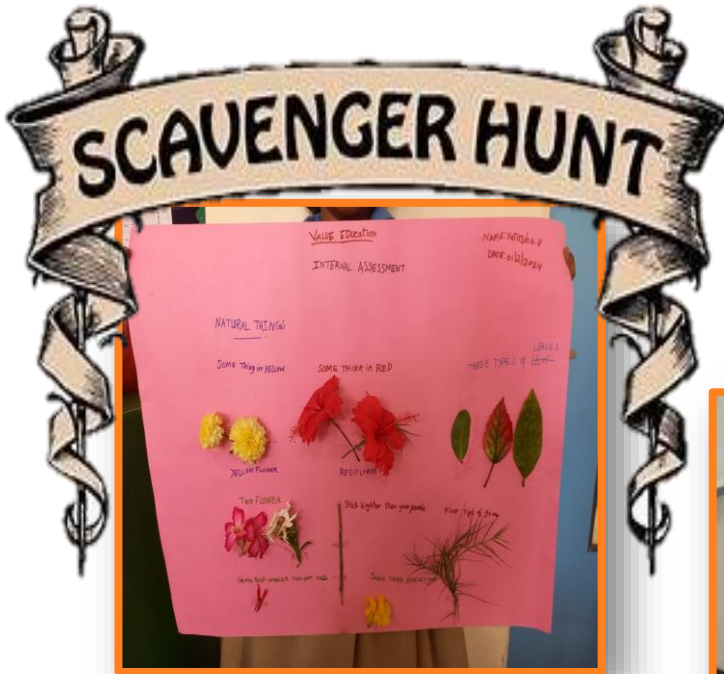

Mother is the most sacred word in this world, it's a gift for a woman to be called as mother by her children, but it is a perpetual boon for a woman to be called as Mother by the whole world, and this boon is been granted to the revered Mirra Alfassa. Her birthday is a celebrated in a great manner at Primrose.

MOTHER'S BIRTHDAY CELEBRATION

There is a one divine Force that acts in both the universe and the individual, as well as beyond the two. The Mother represents all of them. On this Mother's birthday, students of Primrose offered flowers to her and also indulge in meditation.

Topic: Nature Scavenger Hunt

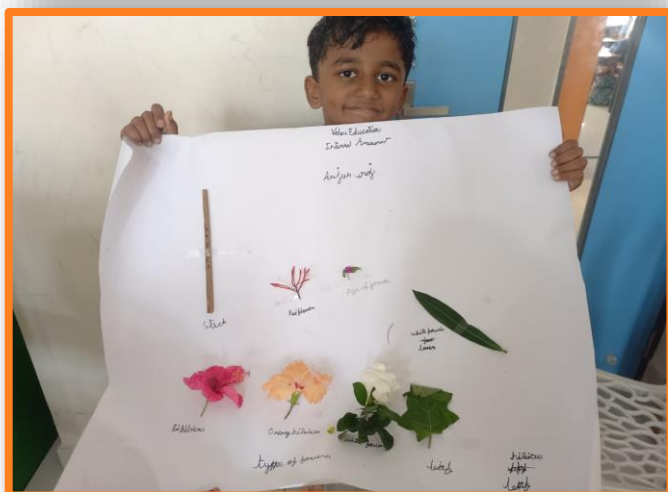

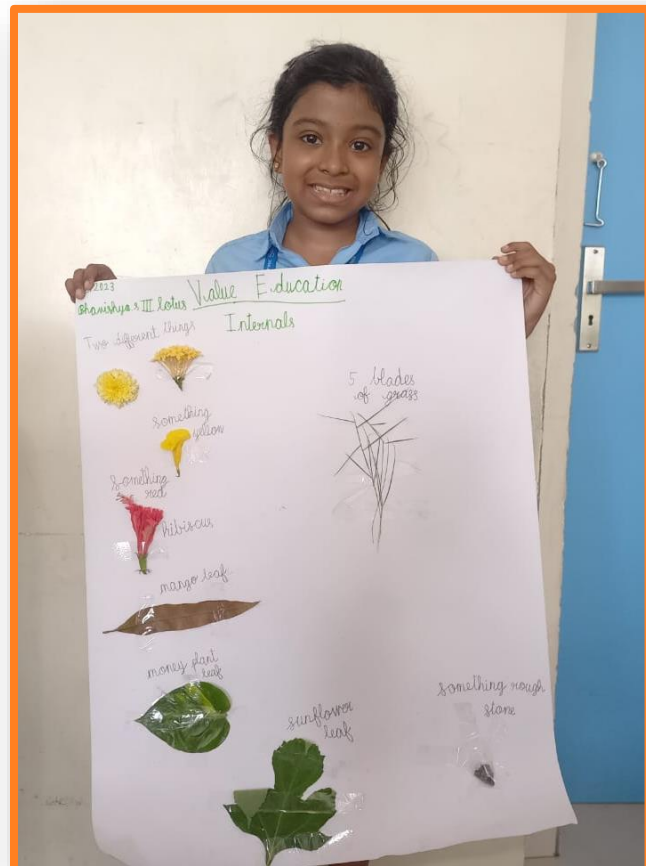

The Nature Art Hunt is a fun and creative scavenger hunt idea that will inspire kids to explore the great outdoors. Children were given a list of natural items such as leaves, flowers, and rocks. The aim of the activity is to collect as many natural materials as possible and use them to create artwork. Children used leaves to form a collage or flower petals to create a poster.

INTERNAL ASSESSMENT - CLASS III

VALUE EDUCATION

Topic: Nature Scavenger Hunt

This scavenger hunt not only inspires children to be creative, but it also teaches them to appreciate the beauty of nature. It is an excellent approach to teaching children about the various sorts of plants, flowers, and trees, as well as how they can be used in art.

INTERNAL ASSESSMENT MATH - II

CLASS IV

Topic: Weight and Capacity

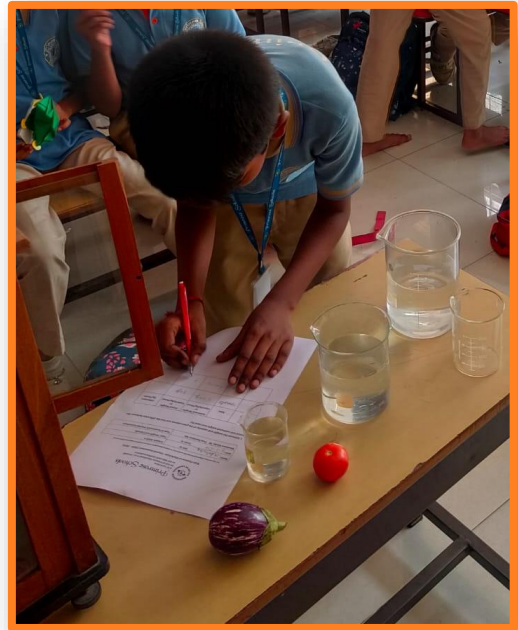

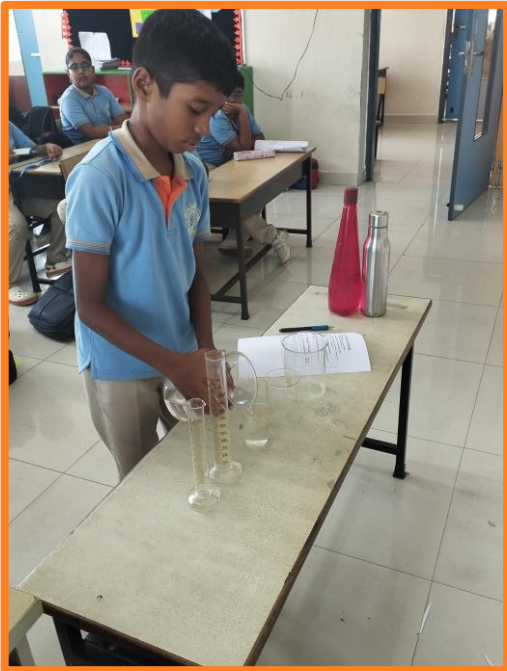

The Measurement and Capacity Activity is an excellent approach to assess how well children performed with size and weight comparisons. They can efficiently estimate the weight of the veggies and determine the exact weight by measuring it in the machine.

INTERNAL ASSESSMENT MATH - II

CLASS IV

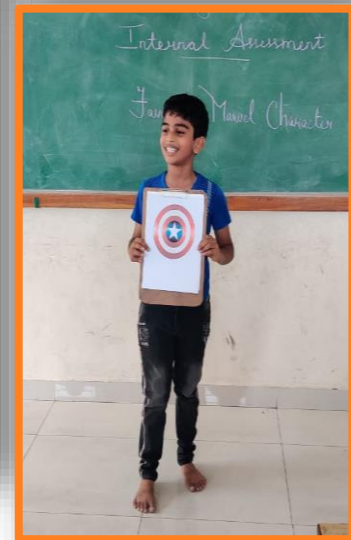

Topic: Weight and Capacity

Children jotted down the values of the vegetables they measured on a worksheet handed to them. This activity helped children keep engaged while they gained a better knowledge of capacity and measurement concepts in mathematics.

INTERNAL ASSESSMENT – ENGLISH CLASS IV

Topic: Marvel Characters

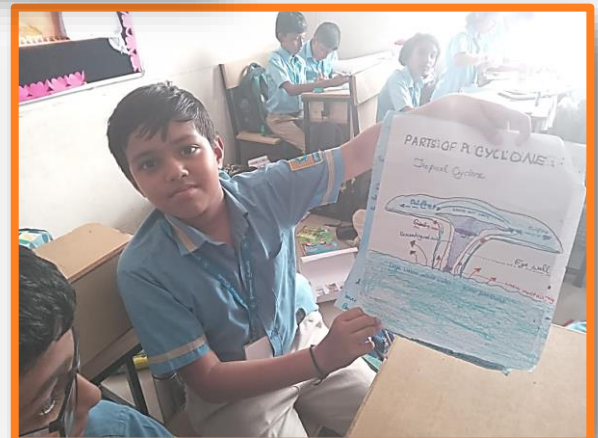

Kids adore superheroes, and it's no wonder! They are invincible, confident, and help people in need. Class IV students dressed up like their favorite superheroes and acted like them. With these superhero games and activities for kids, children will see why it's fun to be a superhero and maybe pick up some of these qualities as they play.

The superhero exercise also encouraged children to be active and enjoy giving their speeches in front of their classmates.

INTERNAL ASSESSMENT - CLASS V

SOCIAL STUDIES

Topic: Impact of the Michaung Cyclone

Students engaged in an activity on the impact of a cyclone, which intensified into a severe cyclone and caused heavy rainfall in many parts of Chennai city.

Students drew and labelled the formation of this cyclone. It assisted the children in describing the atmospheric conditions required for the formation of tropical and extratropical cyclones; analyzing case studies of how geologic and climatic hazards such as cyclones impact coastal systems; and investigating geomorphological changes caused by cyclones.
